

SAS File: YARD_F

Contents: YARD_F The YARD_F table contains the questions about what body of water is in the yard. The data from CATI contains up to 6 records per ID with a flag called Yardnum that identifies each type of record:

Yardnum=01: Q7a swimming pool
 Yardnum=02: Q7b Jacuzzi
 Yardnum=03: Created only if both Q7a and Q7b = yes
 Yardnum=04: Q7c wading pool
 Yardnum=05: Q7d pond/lake
 Yardnum=06: Other location

With many respondents answering yes to both swimming pool and Jacuzzi, a decision was made to only ask questions about the fence, gate and cover once. CATI generated a new record (Yardnum=03) which contain the answers to the fence questions when swimming pool and Jacuzzi are both yes. Westat merged the fence answers from Yardnum=03 onto the Yardnum=01 and Yardnum=02 records. The Yardnum=03 record is not included in the delivery.
